Advancing, innovating and transforming the world

BLOX. A Decentralized Autonomous Organization with next generation DAOchain Technology

What is a DAO LLC?

Is a decentralized blockchain based organization formed as a Limited Liability Company (LLC) with equal standing shareholders using a majority voting process for decision making. Originally designed by developers as a systematic form to automate, facilitate and track cryptocurrency transactions, smart contracts have been adopted to manage business and institutional direction.

What is BLOX?

Is an Algorithmically Managed Organization legally certified by the State of Wyoming, USA on March 2, 2022 through the Office of the Secretary of State as a DAO Organization.

What is BLX.org?

Is the domain portal hosting advanced decentralized blockchain technologies listed below:

- **BLX** Smart Mining
- **BLX** Cold Storage (True-offline)
- **BLX2** Smart Contract Protocol
- **BLX88** NFT Implementation
- **BLX118** CBDC Implementation
- **BLOX** Staking
- **BLOX** Voting

BLOX Mission

To advance, innovate and transform industries, markets and businesses globally by providing simple and accessible DAO and blockchain technologies to anyone, anywhere.

BLX is a utility and tool for all. A cost-efficient and sustainable investment to implement visions or solve problems immediately with exponential returns.

Why BLX.org?

Is a one-stop shop blockchain solution provider that deploys, manages and monitors digital assets in any shape, form or value. Open APIs allow for customization to reflect personal taste or business brand. The BLX effect will enhance perspective, confidence and organizational trust through its transparent, secure and accurate implementations.

What to do next?

Visit BLX.org. Mine BLX Cryptocurrencies using your personal devices and machines or visit our online communities to acquire BLX from its friendly and helpful members.

Implementing your vision with blockchain will be easier through BLX!

BLX Impact

BLX SmartMining

Instructions: <https://blx.org/how-to-mine.html>
Select Region

BLX Cold Storage

Blockchain exit and return protocol to/from external drives (off-line) for added security and comfort.

BLX2 Smart Contract Protocol

Proof of Stake (PoS) token asset creation and sustainment protocol using the BLX Network.
<https://blx.org/AAI.html>

BLX88 NFT Implementation

Proof of Stake (PoS) media asset creation and sustainment protocol using the BLX Network.

BLX118 CBDC Implementation

Government solution for Central Bank Digital Currency requirements.

BLOX Staking

BLOX members with organizational stake and decision-making power.

BLOX Voting

BLOX member voting system/process to determine organizational next steps.

BLOX IN A SNAPSHOT

General Information

Stake: BLOX

Stake Available: 100,000,000

Current Stake Value (1): 0.00001 BTC

Country Developed: USA

Developed By: BLOX

Public Release: March 5, 2022

Category: DAO | Blockchain

Blockchain: Bloxchain

Website: BLX.org

Application

With its robustness and holistic capabilities, any BLX implementation can function independently or interoperate with other BLX Smart Contracts. This ubiquitous feature enables and creates an opportunity to bridge communities, institutions and markets seamlessly.

In a world with endless borders, brands, businesses and governments, BLX is an all-embracing option that not only connects all but removes titles, positions and levels to ensure fairness for the majority. Transparency, accuracy and integrity for its stakeholders and users throughout. A simple yet powerful foundation for the BLOX organization to instill faith and trust for all the members it supports.

Participation

BLOX has opened a Proof of Stake (PoS) opportunity for those who wish to become contributing and voting members of the organization starting March 5, 2022.

1 BLOX Stake = 0.00001 BTC.

One of the rarest and most affordable participation opportunities with value expected to reach exponential proportions in the coming years.

Important: BLOX Stake is not a token! It is "stake" within a legally organized and certified institution with extremely valuable technologies providing all contributors with voting power! A key differentiator amongst other offerings or Smart Contract opportunities.

GET IN TOUCH

BLOX is a community-led organization that shares common goals, from making profitable investments to building impactful products. Our goal is to enable people from different backgrounds to contribute to a decentralized core and build projects they're passionate about. Reach out to us to learn more.
